DETAILED ACTION

1. This action is in response to the remarks received on August 20, 2009.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 26 and 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Morrison (USPN 4,074,771).

In reference to claims 26 and 1-10, Morrison discloses a hydraulic system comprising: a rotation circuit 30, a percussion circuit 32, and a feed device circuit 34; a separate pump 38a, 38b, 38c for each respective circuit; at least one power unit for driving the respective hydraulic pumps at separate and distinct rates (figure 1; column 5 lines 12-17); a rotation motor actuator 22, a percussion motor actuator 20 and a feed motor actuator 18 connected to the respective circuits; and means 48, 76, 90 for adjusting the hydraulic power to be led to the respective actuators connected to the hydraulic circuit; wherein each separate hydraulic circuit is operationally separate from each other (column 2 lines 46-51) and adjustable independent of one another based on detected fluid pressures (column 5, lines 20-26); distinct pressure fluid tanks R (figure 1); and flow sensors 118, 120.

Response to Arguments

4. Applicant's arguments with respect to claims 1-10 and 26 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Refer to attachment for notice of references cited and recommended for consideration based on their disclosure of limitations related to the claimed invention.
